

Chap 1 pH

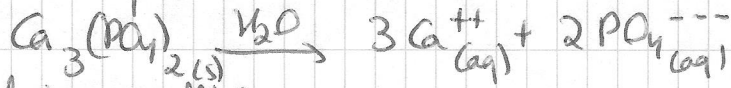

sel ionique MX

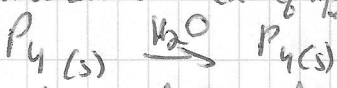

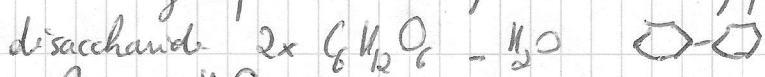

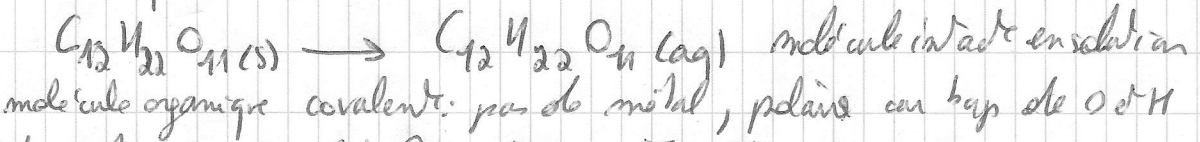

élément: covalent parfait: non polaire

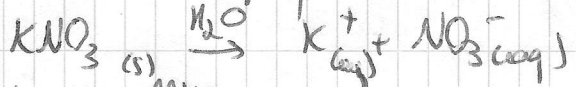

sel ionique MXO

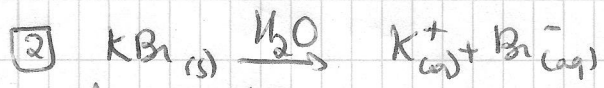

sel ionique MXO

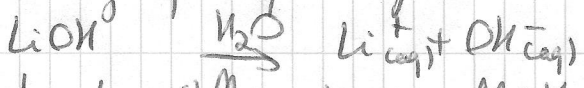

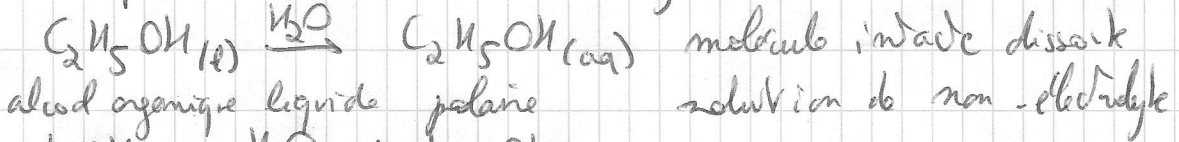

élément: covalent parfait non polaire

sel ionique MXO

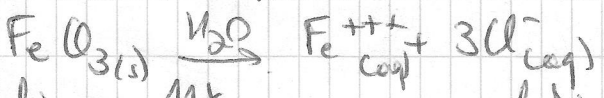

sel ionique MX solution d'électrolyte

hydroxyde métallique ionique MOH solution d'électrolyte

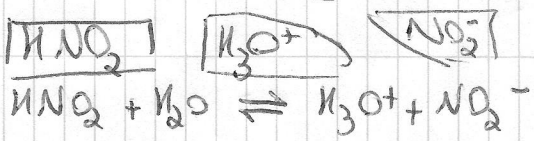

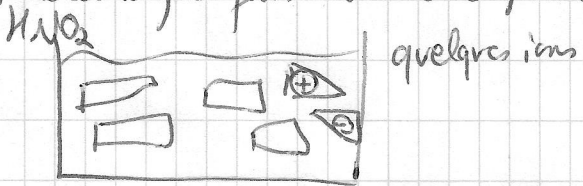

acide covalent ionisation solution d'électrolyte

sel ionique MX solution d'électrolyte

③ électrolyte faible: acide peu ionisé: molécules intactes et qqes ions

KNO_3 électrolyte fort:
